BTS Study Guide Glossary

As you will no doubt have discovered by now, examining boards, government institutions and financial bodies are keen to use abbreviations and acronyms whenever and wherever they can!

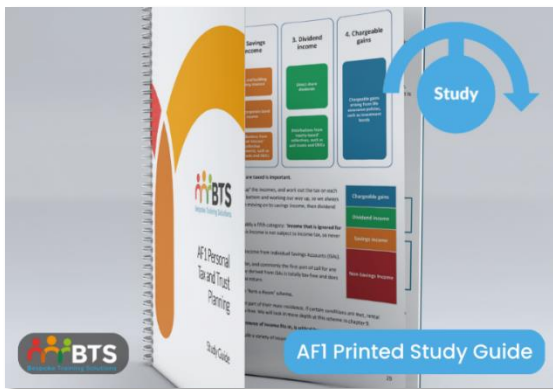

We have captured all the abbreviations that are found in the R0, AF and J0 courses, and summarised them into this useful glossary which we are providing as a free of charge studying tool.

BTS guide you from the start of your learning journey to ensure you are equipped with the knowledge and techniques to guarantee the best chance of R0, AF and J0 exam success. This glossary is another example of the unique, industry-leading tools that BTS provide.

What other support is offered by Bespoke Training Solutions?

Study Guides

If you haven't yet ordered your BTS study guides, we would recommend that this is your next step in your learning journey.

BTS study guides are available in a choice of two formats: printed or digital, in a way that starts at the beginning of each learning outcome and gradually builds knowledge and understanding as you work through.

This means that you learn the required areas for your exam 'step by step'.

The guides are designed as full replacements for the CII text, so you can book the exam stand-alone.

They contain practice questions, end of chapter tests and a full specimen exam, all of which include rationale for the answers. BTS questions replicate the CII exam standard as closely as possible.

Remote Workshops

BTS also offer remote workshops, which will focus on key exam areas and are fantastic as a revision workshop before an exam attempt.

You can also access our e-learning module, which covers the same key learning outcomes as a BTS revision workshop.

To purchase our materials or download free samples to 'try before you buy' go to <https://www.bespoketrainingsolutions.com/shop/> or scan this QR code.

Careers Zone

If you are unsure what your next steps should be with any of the courses, we would recommend that you take a look through our study plans by visiting <https://careerszone.bespoketrainingsolutions.com/study-support/> or by scanning this QR Code.

Practise using the BTS Study Buddy App

The BTS Study Buddy provides a digital way of practicing for the Chartered Insurance Institute exams, increasing your chances of passing a course at the first sitting.

The app replicates the CII exam standard and format, as much as possible. It can mirror the time pressure that you experience in a real exam, and allows you to choose the exams that you sit; either full specimen exams or questions that focus on specific Learning Outcomes.
